

DDG-1000 Zumwalt

DDG-1000 · Navy · General Dynamics Bath Iron Works TRUNCATED

-39%
\$31.5B (2005) → \$19.1B (2015)

ASSESSMENT

The flagship truncation: the formal SAR baseline was 10 ships; the buy collapsed to 3, so total constant-\$ cost FELL (\$31.5B → \$19.1B BY2005\$) while per-ship cost exploded past ~\$7.5B. (The oft-cited "32" was the pre-Milestone-B DD-21 vision, not the baseline.)
